 **WARNING!**

Text passages after the word „WARNING!“ contain information which have to be followed to save the shooter from potential damage.

 **CAUTION!**

Text passages after the word „CAUTION!“ contain information which have to be followed to avoid potential damage to the weapon.

### Intended Use

STEYR ARMS weapons are intended to be used according to the respective national regulations. Any other use or any exceeding use is regarded to be a use not intended. The adherence of the instructions regarding safety, operation, maintenance and care given in the user's manual are part of the intended use. The user is solely liable for any damages resulting from use not intended. This applies as well for any arbitrary and inappropriate changes to the gun.

### Preface

This manual and the warnings contained herein must be read and understood before using your product. This manual familiarizes the user with the function and the handling of the rifle and warns against the potential dangers of misuse that may lead to accidents or injuries. This manual should always accompany this firearm and be transferred with it upon change of ownership, or when the firearm is loaned or presented to another person.

This manual is not a substitute for a firearms safety course!

## 1. Special notes and warnings

 **WARNING!**

Failure to adhere to safety informations and safety instructions in this manual, carelessly or improperly handled, can cause property damage, personal injury or death.

 **WARNING!**

Despite mounted suppressor it is a firearm. All associated safety instructions must be adhered to.

 **WARNING!**

The STEYR UMS is available for different caliber groups. Verify that your STEYR UMS match with the caliber of your firearm.

## 2. Before shooting

 **CAUTION!**

Before shooting, you only clean the barrel bore of oil and wipe the bore dry.

 **WARNING!**

Make sure, that the suppressor is tighten on the barrel.

 **WARNING!**

Make sure, with a look through the barrel, that nothing is in the trajectory of the bullet.

 **WARNING!**

The centreline of the silencer must be completely concentric with the barrel axis.

### 3. Mount the STEYR UMS

Mount:

1. Loosen the suppressor.

2. Open the locking piece.

3. Position the suppressor on the muzzle break. The locking piece must match with the 2 straight surfaces on the muzzle break.

4. Push in the locking piece.

5. Fix the suppressor by tightening it with your hands.

### Dismantle:

1. Loosen the suppressor.

2. Open the locking piece.

3. Take the suppressor off.

**⚠ WARNING!**

**Make sure, that the suppressor is tighten on the barrel.**

**Note:**

The point of impact of a weapon can change with mounted suppressor opposite the point of impact without suppressor. Re-shoot your weapon for use with the suppressor.

## 4. Cleaning and maintenance

It is important that no foreign body or Tombak deposits accumulate and thus reduce the bore diameter.

**Clean the suppressor after 1000 shots as follows:**

- Clean the suppressor with a correct sized bronze brush or synthetic brush. For this push the brush several times through the bore.
- Blow out the suppressor with compressed air.
