

CHANGE OF OWNERSHIP AT STEYR ARMS GMBH

Dear Business Partner,

we would like to inform you that the RSBC Group, headquartered in Prague/Czech Republic, has acquired 100% of the shares in the STEYR ARMS Group as of April 23rd. RSBC (www.rsbcgroup.com) is an owner-managed industry group with a focus on defence/security, real estate and asset management. The Group's strategy is based on the tradition and values of the Schönfeld family and is focused on long-term value creation, stability, strong partnerships and responsibility.

"STEYR ARMS is a very well-positioned international company with a very strong brand. The products are world-renowned for their reliability and precision. STEYR forms the strategic heart of our group of companies in the field of the security and defence industry as well as for hunting and sporting weapons. The location in Kleinraming as well as the strong connection to Austria as an important supplier to the armed forces and police is one of the main strengths of the company and will of course be retained in the future. In conjunction with our other companies in the group, we will be able to increase sales and efficiency well in the future," says Robert Schönfeld, CEO and owner of the RSBC Group.

Nothing will change for you as a STEYR ARMS business partner – your contact persons and the management of STEYR ARMS will remain unchanged.

Together with our new owner, we are therefore looking forward to continued good cooperation and good business in the coming years!

Yours sincerely

Oliver Bauer
